Your position on the matter Support
Representing Self
Organization
Do you wish to speak at the hearing? No

Written Testimony

I have testified at the two hearings prior to today. I continue to support this measure as a stop gap measure to regain our neighborhood. For 2 weeks there has been a horrendous pile of garbage and trash across from my window on IWILEI Road. Since it is State property, we have to wait another week for the ONE crew to come and clean it up. This is no way to live for Senior Citizens who have worked all their life to relax and enjoy life as it remains.

Please continue to support this Bill 13 to help us who are living across the street from the constant chaos.

Mahalo, Karen Carlen
